## ÉCONOMIE ET GESTION PARCOURS INTERNATIONAL / INTERNATIONAL TRACK

### OBJECTIVES OF THE DEGREE PROGRAM

The **international track** of the Bachelor degree in Economics and Management aims to provide students a better understanding and an overall view of the economy, quantitative methods useful in analyzing economic and management issues, as well as accounting knowledge. The Economics and Management teaching will give students the necessary training to be able to:

- construct and develop a reasoned argument with a critical mind,
- develop writing and speaking skills in French and in English,
- be independent, productive and have the necessary leadership skills,
- acquire good communication skills.

This degree provides students with essential knowledge and tools applicable to national, international and multinational companies and institutions.

### STUDENT PROFILES

Primarily designed for students with a background in science and/or economics, the international track is tailored for those who possess a curiosity and fervor for global matters. It aims to provide a comprehensive understanding of the worldwide economy and delve into the various facets of globalization, transcending the confines of the local/national economy. Additionally, students are expected to showcase their proficiency in collaborative work, effective communication and responsibility to achieve their goals and succeed.

### THE PLUS : AN INTERNATIONAL DIMENSION

The course content for both the international and classic tracks of the Economics and Management bachelor's degree is largely identical, with a common number of class hours.

**Specificities of the international track lie in:**

- **courses taught in French and in English** (see details below),
- **a compulsory international mobility** for students, which will take place over the course of their bachelor (which is a 3-year program).

The volume of classes taught in English are increasing progressively: 25% the first year, 30% the second year, and 50 % the third year.

Also, students will be part of multiple group projects throughout the years, improving their teamwork competencies.

**180 crédits / 6 semestres**

### Information and registration procedures :

Faculté de Droit et des Sciences  
Economiques,  
5 rue Félix Eboué,  
87031 LIMOGES Cedex 1

## INTERNATIONAL MOBILITY : OUR PARTNERS

**It will be required for students to enroll in an international mobility:** students will have to study abroad for a year (or a semester) during their third year (during the second year is also possible) or they will have to take an internship overseas.

In both cases, mobility can take place within Europe (including our ERASMUS partnerships) or outside Europe. Admin support will be given to students to choose their mobility and to look for the founding they are entitled to. Here some examples of Limoges Faculty of Law and Economics current partnerships:

### EUROPE

- Czech Republic ( Pilsen, Pragues )
- Germany
- Greece ( Crete, Piraeus )
- Italy ( Naples, Roma, Ancone )
- Poland
- Romania
- Spain ( Salamanca, Valencia..)
- United Kingdom (Birmingham)

### OUTSIDE EUROPE

- Australia
- Canada (including the Quebec province)
- USA (North Carolina, Oklahoma, Texas)
- Indonesia
- New-Zealand

## MASTER AND JOB OPPORTUNITIES

### MASTERS

For example, students from the international track can apply to:

- Masters of Limoges Faculty of Law and Economics including the Master of Money, Banking, Finance and Insurance,
- Masters in French Universities,
- Masters in Foreign Universities,
- Masters in Teaching, Education and Training,
- Business Schools.

### JOB OPPORTUNITIES

After a Bachelor in Economics and Management, students can be hired for intermediate staff jobs (finance, human resources, accounting...) whether in the public or the private sectors. Thought, a majority of students pursue and undertake a Master degree.

Most students studying Economics and Management take jobs as: credit analyst, financial analyst, management assistant/manager, human resources assistant/manager, marketing assistant/manager, management controller/ advisor, economist, statistician, bank account manager, insurance product manager, accountant...
